-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the pull strap as recited in claims 13 and 23 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 5 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson, U. S. Patent 6,119,621..

4. Johnson teaches a folding sign 10 comprising a flexible cover 32 having three surfaces 44a-44c for displaying information; a supporting device 26a-c for supporting the flexible cover 32, wherein the supporting device can be moved to a collapsed position (figure 2); and at least one connecting mechanism that connects the flexible cover to the supporting device. The connection mechanism comprises pockets 38a-c formed in the interior of the flexible cover, wherein the at least one connecting mechanism is configured to permit the connection to release to allow the supporting device to move to the collapsed position. The supporting device holds the flexible cover such that the flexible cover has an apex portion 34 and the flexible cover includes a shield (double layer fabric 35) positioned on at least part of the apex portion.

5. With respect to claim 13, Johnson teaches straps 68a-c or 72a-c at the lower ends of the base.

6. Claims 24 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Freeman, U. S. Patent 6,119,621. 24. Freeman teaches sign comprising a flexible cover 12 having two surfaces 28 and 30 for displaying information; a supporting device 14 for

Art Unit: 3611

supporting the flexible cover; and a handle 38 that facilitates carrying of the folding sign, wherein the handle is disposed at a top of the folding sign and an opening or recess 46 for displaying the information 54/56 and an outer surface adapted to be grasped by a hand.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 27 is rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson in view of Schulze, U. S. Patent 4,462,145. Johnson teaches providing a container for a foldable sign and associating the sign with the container. Schulze teaches a collapsible sign having displaying information of the surfaces of the sign identifying the location such "Wet Floor" or "Avalanche Area". See figures 36-39. It would have been obvious to one having ordinary skill in the art at the time this invention was made to construct the sign taught by Johnson with indicia thereon as taught by Schulze to provide information about the location of the sign.

***Allowable Subject Matter***

9. Claims 1, 3, 4, 6-12, 14-23, and 26 are allowed.

10. Claim 28 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3611

***Response to Arguments***

11. Applicant's arguments with respect to claims 5, 13, 24, 25, and 27 have been considered but are moot in view of the new ground(s) of rejection.
